# ABOUT US

FART Coin (FRTC) is a fascinating project that offers a fun and engaging way to determine one's luck in the crypto world. By holding a coin in your wallet, you are automatically entered into a daily lucky draw, and the winner is chosen at random. However, FART Coin provides several benefits that make it a revolutionary DeFi project, including decentralization and transparency, multiple use cases underway, daily lucky draws, and no need for purchase.

We strive to foster a community that embraces the thrill of unpredictability and encourages individuals to embrace their own luck. With transparency and decentralization at the core of our project, we are committed to creating a secure and fair ecosystem for all participants.

Furthermore, we are dedicated to continuous innovation and improvement. We are actively developing multiple use cases and decentralized products to enhance the value and popularity of FART Coin. By introducing games and other engaging applications, we aim to provide an interactive experience that goes beyond the traditional boundaries of cryptocurrency.

Ultimately, our goal is to become a prominent player in the world of decentralized finance. We envision FART Coin attracting a large following of investors and enthusiasts who are drawn to the unique opportunities and experiences we offer. By staying true to our vision and mission, we are confident in our ability to make FART Coin a resounding success.

## **Our Mission**

Our mission is to provide a platform where individuals can explore the possibilities of luck and chance. Through FART Coin, we aim to create an inclusive and accessible environment where anyone can participate in daily lucky draws, regardless of their financial capacity or previous crypto experience.

## **Our Vision**

At FART Coin, our vision is to redefine the concept of luck in the crypto world. We believe that everyone should have an opportunity to determine their luck in a fun and engaging way. By offering daily lucky draws through our unique cryptocurrency, we aim to bring excitement and entertainment to the decentralized finance (DeFi) space.

# ECOSYSTEM

FART Coin (FRTC) is a DeFi project that leverages the cutting-edge technology of the Binance Smart Chain (BSC), one of the world's leading and fastest blockchain networks. By building on BSC, FART Coin ensures fast and secure transactions, providing a reliable foundation for its unique features.

FART Coin utilizes a decentralized blockchain infrastructure, which enhances transparency and security. The decentralized nature of the project ensures that there is no central authority controlling the transactions, making it resistant to censorship and manipulation. This transparency builds trust among users and promotes a fair and inclusive ecosystem.

Regarding the coin's mining and distribution, FART Coin operates on a daily lucky draw system. Holders of the coin receive 50 tokens daily through this draw, with the winner being selected randomly from the list of holders. The more coins a user holds, the higher their chances of winning. This innovative concept of distributing tokens fosters engagement and encourages users to participate actively in the project.

FART Coin offers a range of exciting use cases that enhance its value and utility within the crypto world. While the project continues to innovate and develop new applications, several use cases are already in progress.

One significant use case involves the development of games and decentralized products. FART Coin is actively working on creating games that provide independent tasks for participants to complete. By finishing these tasks, users receive notifications and can then enter the lottery. These games not only add an element of fun and interactivity to the project but also expand its potential user base.

The daily lucky draws themselves serve as an engaging use case for FART Coin. By holding the coin, users have the opportunity to participate in the daily lottery and potentially win significant rewards without the need to purchase or invest in the project. This feature sets FART Coin apart from other luck-based cryptocurrencies and appeals to individuals seeking an exciting way to test their luck.

As FART Coin progresses, it aims to explore additional use cases and decentralized products to further increase its value and popularity. By continually expanding its ecosystem and offering new ways for users to engage, FART Coin positions itself as a dynamic and promising project within the realm of decentralized finance (DeFi).

# WHAT TO EXPECT

## Daily Lucky Draws

Daily Lucky Draws The daily lucky draws are the most exciting aspect of the FART Coin ecosystem. It provides a unique opportunity for holders to win tokens daily, which they can then use for various purposes or sell on exchanges. The more coins one holds, the higher their chances of winning.

## No Need of Investing

Users don't even need to purchase FART Coin to have a chance at winning; they only need to create wallets and take part in the daily lottery. This makes it more accessible and inclusive for people who may not have the means to invest in cryptocurrency

## Potential for Growth

With its unique approach to DeFi and the growing interest in cryptocurrency, FART Coin has the potential to attract a large following of investors and enthusiasts. As long as the team behind FART Coin continues to innovate and improve its platform, it could become a major player in the world of decentralized finance.

## Decentralization & Transparency

FART Coin is built on Binance Smart Chain, which provides a decentralized and transparent platform for transactions. It ensures that there is no central authority controlling the transactions, making it more secure and transparent.

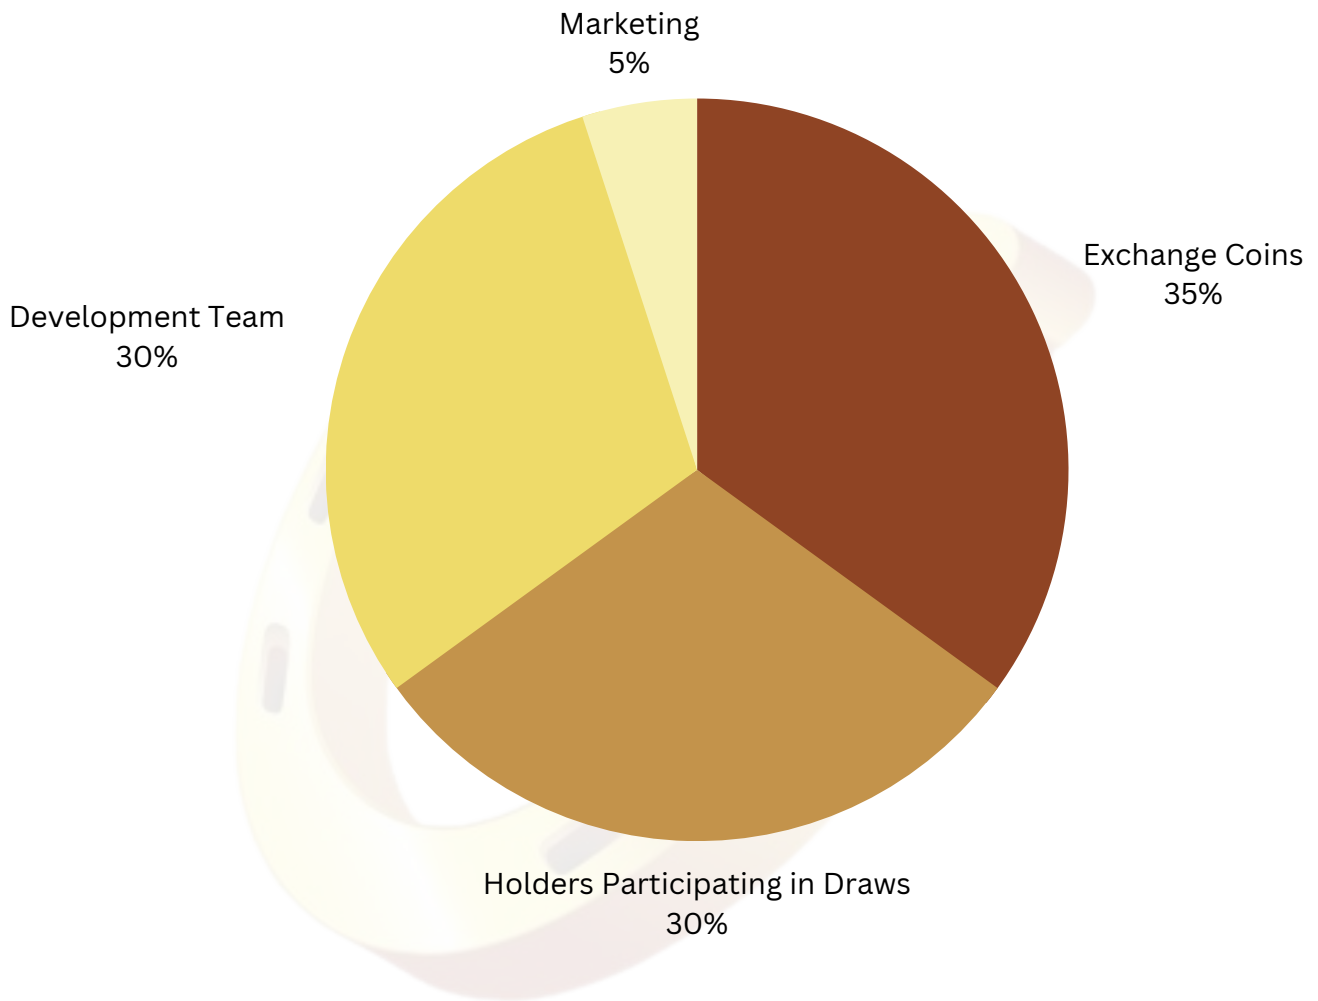

## Multiple Usecases

FART Coin is developing several use cases and decentralized products, which will help increase its value and popularity. One of the upcoming rollouts is games with applications in development. They will enable participants to finish tasks independently of the chat and updates. After completing a few easy tasks, the program will notify the user, and they can then enter the lottery.

# TOKENOMICS

FART COIN (FRTC) is a cryptocurrency project created to determine your luck. By holding FRTC in your wallet, every day one of the holders will be randomly selected to receive 50 coins from the team.
